### *Lish AI labs*

Lead Developer &  
Design

2023 - Current

Worked on cross functional teams for various clients conducting user research, uncovering opportunities for product transformation and business strategy

Delivered development ready prototypes, design systems, and annotated documentation through an Agile cadence for 3+ clients across multiple industries

Led a team to create the Cloud worker Monitoring and Dashboard responsible for ideation, team coordination, design direction, front end development, and visual design

Designed pivotal features for all apps currently undertaken by the team including multiple client website and internal websites

### *Lish AI labs*

Software Engineer

2022 - 2023

Instrumental in establishing a new department, defining its role and presented a two Year vision for the department

Collaborated on technical projects like the Jitume AI/ML Curriculum which is being used as a guideline in the training of AI Cloud workers.

Contributed design for the Lish official website and other various client websites on contract base

### *Department of Health Services, Nakuru County,*

Internship

May 2022 - Aug 2022

Provided technical assistance and support to the Department of Health team, ensuring seamless operations and resolving technical issues promptly

Provided constructive feedback on projects, helping the development team refine and improve their concepts and execution
